Full stack developers
Bootstrap coding Internship

About Me

A 3rd year computer science undergraduate student at GRD (PG) IMT with an interest in web developing, cloud computing, DevOps and cool tech gadgets.

Experience

Oct 2020 - Nov 2020

Suven Consultants and Technology Pvt. Ltd. Company | Bootstrap Coder

I have worked in suven Pvt. Ltd. company as a bootstrap coder.

During my internship I have learnt a lot of practical application of the different technologies.

I have worked on six project during my internship.

Project: Tutorpoint, E-learn, Earbot, Opexx, E-eat, Alumini management.

Sep 2020 - Nov 2020

Internshala | Internshala Student Partner

I had participated in internshala isp19 events.

My major role was to promote the idea of interships to the students and connect them to various programs (like registration, training enrolling, seminar).

Great work culture, intelligent minds working together.

I was appreciated for my services as internshala student partner in my isp19 journey.

Education
